Our Mission

Our Mission

To design and install a high-quality control rooms for specialist market-sectors and through this to establish a reputation in the Middle East as the premier provider of advance technology products and solutions.

Corporate Summary

Two Decades of continued success

Established two decades ago, in the year 2000, INTERTECH set out to supply the highest quality, specialized products and solutions whilst providing clients with a single point of contact for a comprehensive control room design, value engineering services, and the highest standard of post-installation maintenance and technical support.

With over 400 installations, INTERTECH offers unique design services for state of the art control rooms within the fields of Security and Surveillance, Aviation, Telecommunications, Traffic, Utilities, Process Control, Smart City, Broadcast and Defense.

Khalid Noeman
CEO
Intertech Vision ME

Corporate Summary

The Gulf Region's contribution to our success

The number and variety of the INTERTECH client base confirm our position as a leader in control room design and installation in the Gulf Region. INTERTECH also benefits from regional economic growth and the willingness of the Gulf States to adopt the latest technologies. It became clear to us a while ago that the growing amount of digital sources of information is the driver in any future control rooms' design and integration.

Corporate Summary

Offering Industry Standards

INTERTECH provides the highest industry standards to our clients in every component of the project. INTERTECH is committed to supplying the most advanced large display solutions with technologies behind the reach of others. This is often offered along with the world's best ergonomically designed technical furniture.

Corporate Summary

IT and Control Rooms

In recent years, INTERTECH has focused on building strong IT-related professional services and solutions in control room environments. Today we have the in-house knowledge to design and support all IT-related challenges in modern control rooms.

INTERTECH has introduced software development in-house capabilities into our range of products and services. We developed solutions for our clients, such as digital stream switcher and stream shaper. We also developed our first mobile service application for customer's service and support.

Service and support is key to our success

Back in 2007, Barco, a leading manufacturer for visualization solutions, had appointed INTERTECH as their Middle East Regional Service Center. INTERTECH offers regional technical services as well as on-site training for Barco clients.

Quality Certification

Fully committed to quality.

INTERTECH is an ISO 9001-2015 certified company.

INTERTECH Engineering Capabilities

Design

INTERTECH provides Ergonomic design for control rooms following ISO 11064-1 guidelines, covering the following criteria:

- Space allocations and room layout
- Display wall configurations, viewing angle and distance.
- Environmental conditions, such as Lighting and Acoustics

INTERTECH Engineering Capabilities

Integrate

Integration between multiple applications is an important requirement for the control room to ensure that operators can handle operation tasks in a simplified manner. This includes viewing and sharing multiple data sources either on a large display or on others devices. The following are information sources that INTERTECH takes into consideration when designing a display system

- Graphical video sources
- Digital video sources
- Other network and internet-driven sources

INTERTECH Engineering Capabilities

Service and Support

INTERTECH constantly invests in building its resources to deliver unmatched services and support to our clients. As a result, we have clients who operate our solutions for extended periods of time, extending to up to more than ten years, offering them the highest return on investment in the display industry. We are proud that we have achieved a historical record of 14 years of 7/24 operations for one of our clients in the UAE.

To be able to achieve such results, INTERTECH provides the following:

- Factory-trained dedicated service engineers
- Shortest response time and around the clock support
- Availability of spare parts locally
- Provide client with application to report and track.
- Offer extended warranty

INTERTECH

Primary Goals

- ◆ Deliver high-quality hardware and software from world-class manufacturers.
- ◆ Provide local engineering expertise for a clear understanding of client needs.
- ◆ Offer after-sales technical support and services for warranty and maintenance.
- ◆ Build long-term relationships with world-leading manufacturers
- ◆ Achieve the highest level of customer satisfaction and a long-lasting relationship.
- ◆ Assist clients in achieving the highest return on investment.

Premises | Personnel

Premises

INTERTECH headquarters is located in the Al Quoz Industrial Area in Dubai, United Arab Emirates. It occupies nearly 10,000 sq. ft. of space for offices and workshops. Intertech also has branch offices in Abu Dhabi, UAE and Cairo, Egypt.

Personnel

INTERTECH comprises a growing professional team of more than 50 personnel in sales, marketing, engineering, support and service, and administration.

Partners

Barco NV

Barco, a global technology company, designs and develops visualization solutions for various selected professional markets: control rooms, defence and aerospace, digital cinema, healthcare, media and entertainment, and simulation and virtual reality.

In these markets, Barco offers user-friendly imaging products that optimize productivity and business efficiency. Its innovative hardware and software solutions integrate all aspects of the imaging chain, from image acquisition and processing to image display and management. Barco has its sales and marketing facilities, customer support, R&D and manufacturing situated in Europe, North America, and Asia Pacific. Barco (NYSE Euronext Brussels: BAR) is active in more than 90 countries with more than 3,500 employees worldwide. Barco posted sales of 1.041 billion euro in 2011.

Partners

Intertech Software Development

Intertech Software Development was founded in 2017 and headquartered in Dubai, U.A.E., with an additional branch in Cairo, Egypt. ISD believes that its wealth of industry knowledge, delivery capabilities, and technical expertise can help enterprises create value by designing and developing products with a unique customer experience. Its flagship product **RAMsys** is an All-in-One situational management system for businesses who inspire to have the highest level of security.

Partners

Evans Consoles

Evans is a world leader in the design and manufacture of products that enhance the operation of control centres. Evans products and services include: needs analysis, control centre design, consoles, display walls, custom millwork and turnkey solutions.

Evans has pioneered innovations, such as computer imaging of proposed control centre designs, individually controlled task light and adjustable height work surfaces within the console industry. Evans products are modular, durable and designed for the specific ergonomic requirements of control centre employees.

Partners

Antrica

INTERTECH is the official Antrica distributor in the Middle East. Antrica is one of the world's leading low-latency, low-bandwidth consumption video encoders and decoders, used within broadcast studios. Their wide range of products makes it available for everyone's AV solution needs.

AOTO

Shenzhen AOTO Electronics Co., Ltd. founded in 1993, is located in Shenzhen High-tech Zone. It's specialized in the R&D, production, marketing, and professional services of LED application products and financial technology products. Over the past two decades, AOTO Electronics has established 17 member companies, including 4 overseas subsidiaries.

Partners

Extron

Extron

Extron products are purpose-built to work together, creating complete integrated technology solutions that work seamlessly with your IT infrastructure. With over 5,000 product solutions, the breadth of the Extron product line provides system designers with the flexibility to select the optimal solution for each application

AMX

AMX® is part of the HARMAN Professional Division, and the leading brand for the business, education, and government markets for the company. As such, AMX is dedicated to integrating AV solutions for an IT World.

Our Clients Include

Testimonials

“The excellent service and fast support we have experienced in these years have strengthened us in our belief that the Intertech - Barco partnership is our best guarantee to keep our video walls up and running 24/7, without interruption”

| **Safwan Harcouss**, Lighting manager, Al Arabiya

Overs Evans’ 40 years history, we have relied on trusted partners such as Intertech to drive our growth and industry leading market share. A relationship that goes back to 2001 is indicative of the level of trust, consistency, professionalism and commitment that has made Intertech our premium partner in UAE. We appreciate that they have invested in our business in the region through marketing, tradeshow, technical training, certified installation training, sales training and onsite demo equipment programs.
